ANNEXURE-3

EVALUATION & Allocation OF TENDER

- Item-wise lowest landed rate as quoted by bidder shall be the basis for evaluating L1 bidder for that item.
- The item-wise L1 bidder shall be the bidder having the lowest evaluated landed rate of the item i.e. Basic price including Packing & forwarding & Freight + GST amongst the techno-commercially acceptable bidders.
- Respective Ceiling amount for all L1 bidders shall be indicated during order placement. However, total sum of amount against all individual ceiling amounts shall not exceed the estimated total ceiling value indicated in the tender.

Methodology for determining L-1 bidder (s) is as demonstrated below:

(Say Allocated value Rs X)

	Bidder P	**Bidder Q**	**Bidder R**
Item No.1	L1		
Item No.2	L1		
Item No.3		L1	
Item No.4		L1	
Item No.5			L1
Item No.6**		L1	L1
Item No.7	L1		
Item No.8	L1		
Item No.9	L1		
*		L1	
*		L1	
Item No. N			
	Total of L1 rates =A1	Total of L1 rates =A2	Total of L1 rates =A3
	And **A= A1+A2+A3**		

Note:

1. L1 rates mean item wise lowest landed cost.
2. L2 rates mean item wise Second lowest landed cost.
3. **In case, two or more bidders quotes same lowest rate against any item, then that (L1)/2 rate shall be considered for evaluating TOTAL of L1 rates as above for all bidders who have quoted same lowest rate against any item.
4. Only once, UCIL may ask L2 rate quoted bidder to match with L1 rate after evaluation of lowest land rates. In case of L2 bidder agrees to supply on matched price of L1 rates then
   a. (L1*0.7) rate may be considered for initial L1 quoted bidder &
   b. (L1*0.3) rate may be considered for initial L2 quoted bidder

   to the matched line items for evaluating TOTAL of L1 rates (i.e. A1 , A2 & A3).

❖ *However it will be purely UCIL discretion weather price matching request will be given to non L1 bidder (or) not.*

Ratio of allocating ceiling values	A1/A * 100= **P1%**	A2/A * 100= **Q1%**	A3/A * 100= **R1%**	Category wise allocated value distribution

Special Note on Allocating Ceiling values:

- Allocated value "X" for this category will be split in **P1%, Q1%, R1%** among L1 bidders.

Include in the NIT as a separate note:

1. The actual quantity may vary in the Price list provided based on the plant requirement. Bidder should agree for it.
